RENO, WASHOE COUNTY, NEVADA. WEDNESDAY, APRIL 28, 1880.

NO. 24.

NEWS ITEMS OF INTEREST.

A conductor on a Colorado railroad coolly shot and killed a man who would neither get off nor pay fare.

Somebody must have hung a horse-shoe on the limb of a tree at Council Bluffs, Iowa, many years ago, for it was lately found imbedded out of sight in the wood.

In the struggle to capture a party of colonists bound for Kansas by two rival railroad agents at Rochester, the fare was reduced from \$30.61 to \$3, one agent selling ninety-three tickets and the other forty-four.

The Australians do not take kindly to the polygamic idea. One of the Salt Lake priests who has just returned from a proselyting visit to the big island says that four attempts were made there to murder him, and the Salt Lake Tribune is abusing the Australians for their poor marksmanship.

Booster and other New England capitalists are preparing to establish "an Angora goat industry" on an extended scale, in the highlands of the Appalachian South. Fifty thousand dollars will be enough capital to establish a herd of 10,000 head of Angoras.

The dome of the Troy Polytechnic Institute's observatory is twenty-nine feet in diameter, and made of paper, reduced by pressure to the hardness of wood, and one-sixth of an inch in thickness. Its weight is only one-tenth of the usual material, and it is so nicely adjusted that a child can turn it.

Gen. Stoler recently had a narrow escape from assassination at Kief. He was walking along a street when he felt something cold touch his cheek. He turned suddenly and saw a man armed with a revolver standing by his side, who at once hurried away, exclaiming, "Excuse me, I have made a mistake."

The workmen who bored the St. Gothard tunnel were mostly Italians, paid at the rate of five and six dollars a day. Many lost their limbs or lives through accidents, but altogether they stood the heat and were less frightened in handling dynamite than the Swiss and Germans. For such enterprises they are classed next to the Chinese.

A report to the annual conference of the Mormons says that the Mormon population of Utah is 111,820, that the church in that territory has lost 600 members and gained 1,500 in a year, and that the church receipts in that period were over \$1,000,000. Apostle Snow made an eloquent defence of polygamy, and there was no show of opposition to that dogma.

A stalwart negro, with a scowling face and a gun across his shoulder, sauntered into a farmyard near Shelbyville, Ind., and said that he had come to kill the man who lived there. He did not know the man, but had been told that he had helped the enemy in a recent drunken fight. The intended victim was hastily hidden, and a summons sent for several neighbors, who came and shot the negro.

A Lady's Electioneering Speech.

In the recent election in England some ladies took part in the canvass. At Hereford, Lady Elizabeth Biddulph addressed an immense audience as follows: "Gentlemen, these are election times, and uncommon times, and we are at present allowed to do things we don't do at other times; so I will make that my excuse for addressing you, and will make you a little speech. Mr. Biddulph cannot be here to-day, but I am here as his wife and representative, and I ask you to put him at the head of the poll, and make him a happy man and me a happy woman. He has your interests at heart, and nobody loves the country more than Mr. Biddulph, I declare to you." Her ladyship, sat down amid vociferous cheering.

Retiring From Business.

A. Straasburger & Co. will sell their mammoth stock of dry goods, fancy goods, carpets, etc. regardless of cost within the next sixty days. They have decided to retire from business, and will not refuse any reasonable offers for their goods. Now is the time to secure bargains, and the public should take advantage of it to save over 50 per cent. by buying of A. Straasburger & Co.

C. J. Brookins is agent for all the leading styles and makes of pianos and organs. He guarantees to sell at Eastern prices, on \$10 monthly installments. Pianos and organs to rent. apr13

THE NEVADA

MONTHLY.

To The Public:

THE UNEXPECTED DEMAND FOR COPIES of the Nevada Monthly, the popularity which the book has already obtained, and a desire on the part of the publisher to ADD MANY NEW AND VALUABLE FEATURES TO ITS CONTENTS, has induced him to charge a small price for the magazine. This step has been taken after a thorough canvass of the field and a large subscription list. Many new contributors will be added, and the Monthly will be made correspondingly interesting and contain more reading matter. Its mining statistics, stock tables, etc., which will always be found reliable, will alone be, for future reference, worth the price of subscription, while its original sketches from the pens of some of Nevada's and California's brightest writers, its interesting and instructive selections, etc., will make it a welcome visitor to the family circle.

The rates of subscription, commencing with the April number, will be: By mail (postage paid) one year \$3 50 " six months " 1 50 Single copies. 25

As an advertising medium, the Nevada Monthly will have no superior, its columns being eagerly read in every camp and mining town in Nevada and adjoining States and Territories. All advertisers will receive from the time their advertisements are inserted a complimentary copy.

Please send subscriptions by postal money order. Write name and address legibly.

THE NORTHERN TRADE.

C. B. Watson, editor of the *State Line Herald*, published at Lakeview, Oregon, recently visited Reno, and the following communication from his pen appears in the last number of that journal. As it relates to the proposed wagon road from Goose Lake to Reno, a matter of importance to the people of this section, we republish it entire.

"I find the people along the entire route from Lakeview to Reno, via Lassen Pass, Cedarville and Salt Marsh, worked up to an eager interest in the matter of opening this road. I can testify to its many advantages now, from personal experience and observation, and can assure our readers, and all concerned, that a more feasible, desirable or direct communication with the railroad cannot be found than that over this route. There are no mountains to cross, except Lassen Pass, over which a number-one road may be constructed at a cost of \$3,500. From Bidwell to Reno, there is not a particle of snow, and the road is smooth and, in some places dusty. Messrs. Murphy & Disabell and Calderwood & Patterson have secured a subscription of \$1,500, and have the promise of more. The route is one which can and will be kept open with very little expense, and in consequence of its being a natural road, and almost wholly free from snow, which so greatly impedes travel on the west side of Warner range. The distance from Lakeview to Reno is about the same as to Redding, and the road traverses an almost level country, while by Redding the route is over a very rugged country, and closed a good portion of the year by snow, as is just now demonstrated by the severe storms which almost annually fall in that section. The route proposed from Reno via Madeline Plains, Susanville and Alturas is objectionable for the same reason. It passes over a mountainous territory, and through a region of heavy snowfall, which at this season renders travel very difficult over it. The people here are taking a very lively interest in the matter, and a considerable amount of money will be raised in this vicinity for the purpose of opening the Lassen Pass and thus give us a connection with Reno not merely passably good, but an excellent route which can be traveled during the whole of our most severe winters. Our people should not lose a day in starting a petition to raise the necessary funds for building this road from Willow Ranch to the summit of Lassen Pass."

THE KALLOCH PAMPHLET.
A pamphlet, entitled the "Trial of the Rev. I. S. Kalloch, on Charge of Adultery," was received at this office yesterday. The cover bears the imprint of "Edith & Co., Boston, 1887." The wrapper was postmarked New York. This is the pamphlet which has recently been circulated in San Francisco, and which is supposed to have led to the shooting of de Young by Kalloch. The substance of the matter contained in the pamphlet was published in the *Chronicle* just previous to the shooting of I. S. Kalloch by de Young. A perusal of the evidence submitted at the trial of Kalloch leaves no doubt that he was guilty of the crime for which he was tried. It was, however, legally insufficient, and the jury could not agree on a verdict.

It is more than probable that Chas. de Young caused the republication of this pamphlet, and its distribution on the Pacific coast. Who else would have taken so much pains to injure Kalloch? DOOD

EDITORIAL NOTES.

"I have come to kill you," said a masked man to Mrs. John W. Paul, as he entered a lonely farm house in Santa Clara county, Cal., last Saturday night. On her knees Mrs. Paul begged for life. "I have four children," she said. "The villain fired two shots at her, one inflicting a painful wound. The lady then drew a pistol and fired at him, but missed. Then he seized her weapon and beat her over the head with it until he left her for dead. This was a robbery attempt, when Mrs. Paul had once given evidence. Her injuries are serious. Mrs. Paul is known in equestrian circles as 'Miss Oak.'"

In Carson Pass, at the head of Carson river, the snow is in some places fully 60 feet deep, where in places the natural fall it has been blown

into the ravines and also slid down from the mountain sides. On the road between Carson and Glenbrook near the summit there are places where the snow is 35 feet in depth. In 1867 the snow between Cisco and Truckee was 150 feet deep, and the telegraph poles were covered along the route for miles.—Carson Times.

Come, now, Niles, 150 feet is a little too deep. The greatest total snowfall on record for any one season at Summit was 75 feet.

A valuable contribution from Fish Commissioner B. B. Redding will be found in another column. It replies fully to a question recently asked by the *Gazette*, in relation to Truckee trout, and gives information of interest in regard to other Pacific coast fish. Mr. Redding has our thanks.

The Ashland (Ohio) Times says: The primaries and conventions all over the State show a decided feeling for Sherman. John Beattie, the great mogul of the Blaine crowd in Ohio, will not have a place in the State Convention. The feeling against Grant is very strong.

The people of Redding, Cal., are raising funds to build a wagon road of 100 miles. They are reaching out for all the business they can get, and as Redding is in competition with Reno for the trade of the valleys north of us, our merchants should not be behind them in enterprise.

The Blaine ticket was elected without opposition in Carson yesterday. D. A. Bender, H. S. Mason, Augustus Lewis and Tremore Coffin are the delegates to the State Convention.

ANOTHER CYCLONE.

Great Loss of Life and Destruction of Property by a Tempest.

MERIDIAN, April 27.—A heavy storm passed over Meridian, Miss., Sunday night, blowing away twenty-two houses. Seventeen persons were killed and twenty-two wounded. The loss in property is estimated at not less than \$100,000.

CHICAGO, April 27.—The following are additional particulars of Saturday night's storm:

Near Taylorville the cyclone was terrific. Many houses were demolished and the inmates killed, killed or carried away, and are still missing. Many were rendered homeless by the storm which lasted from 7 P. M. to midnight. Alonzo Culler's house was blown to atoms, and one of his children killed outright and another carried away and found dead in the morning. Mrs. T. J. Langley was killed. John Gessner had his skull fractured and will die. A man named Watts and his wife were blown a quarter of a mile locked in each other's arms, and were found badly cut, bruised and injured. T. W. Bertz, Mr. Elliott, wife and two children, the little daughter of Ed. Ligh, and Thos. Hill were badly hurt. Hundreds of cattle, sheep and hogs were killed and killed, and fowls were found in the line of the cyclone dead and divested of their plumage.

THE YOUNG MURDER.

From the S. F. Post.

The Rev. Isaac M. Kalloch, who did the shooting, came to San Francisco from Headbush about the time his father was shot by Charles de Young, on the 23d of August, 1879. He had a church there, of which he was pastor, but came down after the occurrence, and became associated with the Fifth Baptist church as assistant pastor. His private residence was with his father, No. 2,314 Mission street. When the Rev. I. S. Kalloch was elected Mayor of the city, he appointed his son clerk, the salary being \$3,000 per annum. He is a young man, of apparently nervous temperament, but great strength of will. In his capacity of Mayor's clerk he has been uniformly urbane, quiet and apparently well disposed to everybody. In his daily intercourse with reporters he was always civil and obliging, inclined to joke, but attentive to his duties. In figure he is slighter than his father, though bearing a slight resemblance to him both in feature and voice. He is the last man that one would have supposed capable of committing this act, and those who knew him will testify readily that he is apparently an unassuming, unassuming young man. His age is about 26 years. He has light blue eyes, and sandy hair, and a pleasant manner.

Heike Taken Arrested.

PORTLAND, Ore., April 27.—The state authorities issued a warrant calling for the arrest of Fred. Heikebeck and David McCarthy, on a requisition issued by Gov. George C. Perkins, of California, wherein T. M. Brown was appointed agent to receive and carry back to California said fugitives from justice. These parties were arrested here a few days ago by Chief Lapen, charged with having received a bribe to absent themselves from Napa, as witnesses in an important murder case.

Orange Wine.

Among the probable future industries of Southern California is the making of orange wine, or as it is termed in France, orange anise. The taste of this wine is said to be delicious, and its more general use is only interfered by the high price, which is commanded. When the production of oranges largely exceeds the demand (a state of affairs which some people contend will be witnessed in a few years), the surplus fruit can be utilized in making this wine.

THE DE YOUNG MURDER.

Old Kalloch's Acquiescence of What Was Done on—Guarded by the Workmen—Young Kalloch Heads Mob—His Acquiescence.

SAN FRANCISCO, April 27.—Mayor Kalloch says he did not know that his son had killed de Young until 10 o'clock Friday night. Last Friday morning, he went out to the Cliff House in company with Mrs. Kalloch, Judge Pendery, of Leadville, Col., and Mrs. Pendery, returning at 6 o'clock. The Mayor said that he felt weary, and laid down on the bed in his own room to rest. He was called for dinner at 7 o'clock, but not feeling well, undressed and went to bed, instead of going down to dinner. He fell asleep immediately after going to bed, but was awakened about 10 o'clock, and informed that his son had killed Charles de Young. He expressed his regret over the culmination of the quarrel.

A PROTECTIVE GUARD.

The Workmen have placed a guard of 23 men, taken from their militia, on duty at Mayor Kalloch's house to prevent the intrusion of undesirable parties who, they think, might be intent upon some desperate act.

THE HACKMAN'S DENIAL.

The hackman who has been made to figure in the alleged conspiracy to murder Charles de Young, writes as follows to the *Morning Call*:

In reference to an article in regard to the Kalloch-de Young shooting affair, I wish to state that I made no assertion whatever about young Kalloch being one of the parties who came to me on the evening of the shooting and, furthermore, the two young gentlemen who came to me that night went to-day to deceive John Coffey, who is working up the case, and explained to his satisfaction who they were.

CHARLES VAN ANDEN.

It was stated in the story of the conspiracy that the hackman had been engaged by Kalloch and another gentleman to stand near the *Chronicle* office, and the inference was drawn that Kalloch intended to escape after the shooting.

THE MAYOR NOT ASKED TO RESIGN.

The rumor obtained some currency to-day that a committee from the Citizens Protective Union waited upon Mayor Kalloch and requested his resignation. Upon the authority of one of the leading members of the Union it may be stated that there is no truth whatever in the report.

NOT ARRESTED.

A false rumor was circulated on the streets yesterday forenoon that the elder Kalloch had been arrested as an accessory to the murder of Charles de Young.

YOUNG KALLOCH IN JAIL.

I. M. Kalloch spends his time in jail in reading Macaulay's "History of England." In relation to the alleged conspiracy he said: "If you see Jim Ransome (the colored servant) you can tell him just to come right out square with the truth. It can't hurt any one."

THE MAN WITH THE DARK MUSTACHE.

The story that the *Chronicle* puts forth that there was an understanding between the Mayor and his son is not generally believed. The detectives are investigating information which they have concerning "the dark man," which, if it turns out to be true, clearly establishes his complicity in the killing. This is to the effect that two men were seen peering through the windows of the *Chronicle* office. One of them was a man with a dark mustache, who said to the other, "There's Charley now." Shortly after the shots, he was heard.

Not From the Printers.

From the S. F. Exchange.

When the cheers went up over the coffin of Charles de Young, it was remarked by some persons that "the printers were getting their revenge." This was a foul libel on the typographical profession, not a member of which was in the gang of inhuman scoundrels who raised their voices in glee over a corpse. On the contrary, a group of the printers who stood near the *Chronicle* office, and who had a bitter fight with the *Chronicle* about the reduction of wages, were the loudest in their denunciations of the ghoul who clamored over the senseless slay. It is easy to determine which locality sent its delegates to howl around the coffin. Had we any doubts on the subject, the reports of the speeches on the stand, would set the matter at rest.

A Story at Virginia's Expense.

From the New York Sun.

An ancient and proud spirit of the Old Dominion was called upon to respond to a most complimentary toast to his native state. "I am proud," said he, "to reply to a toast to Virginia, the mother, as she is of heroes, statesmen, and states." Whereupon another native of Virginia, who had migrated to Texas, but happened to be present on the occasion, ejaculated: "Yes, by George, but she stopped breeding long ago!"

Now the Best Seed.

It is one of the great laws of nature always to select the ripest, fullest (plumpest) and best-developed seed grain, the same as a stock-keeper selects the very best bred animals of both sizes for breeding purposes. The so-called pedigree wheat, as is well known, has to pass through quite the same procedure. It must consequently be put down as a rule to sow only the very best seeds obtainable.

Eighty Miles an Hour.

The National Car Builder says that a locomotive on the Pennsylvania railroad made the fastest run on record a few evenings ago. It was ordered from the round-house to the scene of an accident, and ran 80 miles in 45 minutes and 8 seconds. This is at a rate of a mile under 35 minutes an hour, and is a very remarkable performance.

PACIFIC COAST NEWS.

Hay has dropped to \$60 a ton in Deadwood.

Fire wood is worth three cents a pound at Bodie just now.

The Tribune says there are only twenty Grant men in Carson.

Parties who claim to know, say that 40,000 cattle have died in Montana this winter.

The Alturas people are obliged to subsist largely on venison just now, as beef is scarce.

At a meeting of the Suto Literary Society Saturday, it was decided that women have greater influence over men than money.

Company G, First Cavalry, left Fort Boise, Idaho, last Thursday, en route to Camp McDermitt, where they are to be stationed this summer.

Nettie Winkler, of Sacramento, the girl who was shot by Mrs. George Hamilton on the night of March 15, has disappeared to avoid testifying.

Hay, which usually sells in Salt Lake in the spring at from \$10 to \$14, is now commanding from \$20 to \$25 per ton, and is scarce at those figures.

Lumber at Candelaria is selling at \$80 to \$100 per M., wood \$20 per cord, board \$5 per week, water five cents per gallon, whisky 25 cents a family.

Actual measurement shows that during the whole winter, 441 inches of snow had fallen at Emigrant Gap and 522 at the Summit. At Truckee there have been about 300.

The Mackay Gold and Silver Mining Company and the Essex Gold and Silver Mining Company have filed for record an agreement to sink a joint shaft on Cedar Hill, near the Phil Sheridan works.

Guy Perham, aged 14, son of G. B. Perham, accidentally shot himself with a shot gun on his father's ranch, about six miles below Hood river, Oregon, on the Columbia, Sunday. The charge entered his left side, and may be fatal.

There have just been bonded three of the most important mines in the Carlsbad district, Meadow Lake, to two men who have abundant means for tapping the worth of the mines, and who have manifested the disposition to do so.

J. W. Peyton, a miner at Brown's Valley, was in Marysville on Friday, and said to one of the banks a gold nugget which weighed a little over \$61. Mr. Peyton found the nugget in the ravine where it had been washed into sight by the late heavy rains.

It is rumored in Alturas, says the *Independent*, that Hugh and Benny Lynch, cattle men, were murdered at their ranch in the state of Sonora, Mexico. They were well-known in Modoc county, having at one time a ranch and large band of cattle on South Fork.

Bismarck hotels are so over-crowded that temporary quarters are prepared and floor mattresses resorted to. The settlers are pouring in by the freight train loaded with stock, household furniture, etc., being but a prelude of the coming inundation of humanity into Dakota during the coming year.

James Giffen has shown the Truckee Republican some coarse free gold washed in a pan, which came from a piece of rock from one of the Carlsbad mines. It was produced through a simple roasting and crushing process, by which it is claimed all the mines in that district can be worked. This rock will go over \$3,000 per ton.

The Sacramento Bee says there is a lack of silver these days, and it is a common thing to see men running about with \$20 gold pieces for which they want silver, which latter is hard to get. So much of it has been sent to the United States sub-treasury in San Francisco in exchange for gold, that scarcely enough has been left to answer the purposes of trade.

MARYSVILLE, April 27.—Two hunters, while hunting on the Hooper ranch, a few miles south of the city, on Friday last, found a handkerchief containing sixteen gold and silver watches, bracelets, finger rings, etc., which was evidently washed from its hiding place under the railroad culvert by the late freshet. It is supposed to be a portion of the plunder taken from the pawnbroker shop in this city on the 21st of October last. The suspected burglars are now in jail, awaiting trial on a charge of burglary.

Skilled Medical Treatment in Leadville.

From the Bama Vista (Col.) Clipper.

A tendertoot, lately arrived in Leadville, in eating a plate of hash at a restaurant, being very hungry, neglected to chew it properly and swallowed a large coal-button. "They doctored him for pneumonia three days before he was able to explain. Then they fed him a big buttonhole tied to a string and fished it out in the time. He now screens all his hash through a cane-bottomed chair very carefully before eating."
